

Barnes Jewish Hospital/Washington University **TCD-Trauma**

Trauma Service
TCD-Trauma

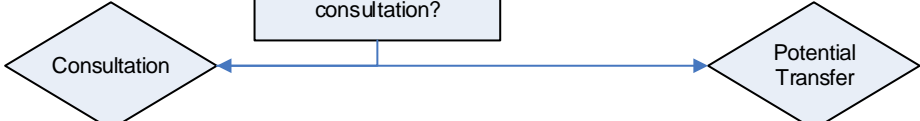

November 1, 2016

DAL:
Was this patient originally admitted for or seen for a problem that was a traumatic injury, such as a fall, MVC, fire, assault, or shooting?

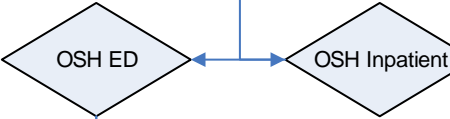

No need to consult Trauma Attending

Is this a call for a potential transfer or consultation?

DAL:
Page requested surgical consult service (ie. Trauma, Ortho, Neurosurgery).

Is patient at OSH ED or inpatient?
Is the patient on a backboard? If yes, remind Trauma Attending to address.

DAL:
Page Trauma Attending on call. If not returned within 5 minutes, call Trauma Attending Cell 314-218-0089

If on Transfer Limitations:
DAL:
Is this an isolated hip fracture from a same level fall?
Is this an isolated spine fracture without airway compromise, hemodynamic instability, or neurologic abnormalities?

If **YES** to any of above questions, page Trauma Attending on call. If not returned within 5 minutes, call Trauma Attending Cell 314-218-0089

If **NO** to any of above questions, follow algorithm to contact EM TCC Attending.

If the ED is unable to accept the patient, please page Trauma Attending on call. If not returned within 5 minutes, call Trauma Attending Cell 314-218-0089

Patient assumed to be accepted by the Trauma Attending on call

If not on Transfer Limitations:
DAL & ED Communication Center:
Connect caller with EM TCC Attending (x86903) and ED Communication Center to receive report on patient. Patient to be leveled by ED Attending and stability assessed for transport.

DAL:
Text Page Surgery Resident (253-1982) with Patient Name, Age, Sex, Injuries, Level given by Trauma Attending, Vital Signs and ETA along with where patient will be going (ICU, Floor).
If isolated head or orthopedic injury also text page or message the Orthopedic or Neurosurgery Attending and Orthopedic resident (424-2094) on call with the same information.

DAL:
Text Page Trauma Attending on call and ED Surgery Resident (253-1982) with Patient Name, Age, Sex, Injuries, Level given by ED Attending, Vital Signs and ETA.
If isolated head or orthopedic injury also text page or message the Orthopedic or Neurosurgery Attending and Orthopedic resident (424-2094) on call with the same information.

DAL:
Before the call ends please inform the caller that the surgeons may wish to call them back with more questions. Please remind them to send images with the patient or upload them electronically. Familiar terms for electronic uploads may be "Picom", "Scmage", or "The Cloud". Also request them to include prehospital EMS trip sheets.
